

## Project Components

**Arrival and Reception Area:** Main entrance, reception (for triage), and a waiting area.

**Active Medical Zone:** (2) Examination rooms, a minor emergency room, a fully equipped mini operating room, an observation room, and (2) inpatient rooms.

**Medical Support and Services Zone:** Mini-laboratory, compact imaging room, sterilization and medical storage room, pharmacy, and restrooms

## Project Details

**Total Area:** 1000 square meters.

**Maximum Treatment Capacity:** 30 patients simultaneously within the medical and treatment rooms.

**Capacity Distribution:** Examination rooms hold 10 patients, inpatient rooms hold 12 patients, the operating room holds 2 patients, and the observation room holds 6 patients.

**Waiting Area Capacity:** Can accommodate an additional 8-12 patients during peak times. • The clinic can serve more than 100 patients in 24 hours for moderate and minor cases.
